

MICHIGAN WEALTH ADVISORY GROUP

Why Join MWAG

Wealth management isn't taught anywhere else on this campus.

FALL 2026

Here's the Pitch

FIVE REASONS TO SUBMIT THE INTEREST FORM

01 Our founder has a full-time offer at Goldman Sachs

In wealth management, specifically. He knows the field and he built this club around what actually gets you there.

02 Real connections, real speakers

He's coordinating with people he knows in the industry to bring in exclusive talks, lessons, and networking — access you won't find through a normal club.

03 Nothing else like it at Michigan

Every other finance club on campus is built around IB, investing, and stock pitches. If you're interested in wealth management, this is the only place for it.

04 The money is real

Average salary for advisors at the firm our founder interned at was \$700K. Strong upward mobility, and the skills carry over into other fields too.

05 No commitment yet

Just submit the interest form and show up to the informational meeting on September 15th.
